It is the earliest-released song to appear on their Greatest Hits album, with the exception of some versions where their first single, 'Keep Yourself Alive', is included.. Background[edit]Initially 'Seven Seas of Rhye' was simply an 'instrumental musical sketch closing their first album'.. The song is officially credited to Mercury only A rudimentary instrumental version appears as the final track on the group's debut album Queen (1973), with the final version on the follow-up Queen II (1974).. [3]The completed version served as the band's third single, and after performing the song on the BBC's Top of the Pops in February 1974 it became their first hit, reaching number 10 on the UK Singles Chart.. [4] It became their first chart entry after gaining airtime on BBC Radio 1,[4] peaking at number 10 on the UK Singles Chart,[5] which in turn persuaded Freddie Mercury to take up Queen as his full-time career.
